

CareFlex Chair

A fabulous opportunity has come our way.

Fife Branch are very fortunate to have been offered a CareFlex MultiAdjust posture care adjustable chair.

This state-of-the-art chair was bought for a lady who has only used it a maximum of three times and unfortunately it is no longer required due to her change of circumstances. The chair has been donated for use by anyone who could 'put it to good use' and not just someone affected by Parkinson's.

The CareFlex Multiadjust Medium Chair with Lateral Supports comes with:

- Medium Pads
- Padded 4-point Pelvic Belt
- Soft Profiled Headrest
- The model is upgraded with Watercell Technology
- Colour Grey with Zest Turquoise panels

The amount paid was £2995.00

I will be holding a silent auction, which is now open and will close at midnight 6th July. The highest bid will be the proud owner of this fantastic chair.

Email mark.coxe@icloud.com (Fife Branch) with your bid.

The following will apply:

- No bid is too small, but please be realistic
- The bidder collects from Burntisland (a small van is advisable)
- This chair is available to anyone, not just people affected by Parkinson's
- The chair is sold as seen
- Should the highest bidder change their mind the chair will be offered to the next bidder in turn
- The money will be donated 70/30 between Fife Branch and the winning bidders Group.
